AFFIDAVIT of PUBLICATION

County of Millard, State of Utah, ss.

I, Jennifer Speakman, being first duly sworn, depose and say that I am the agent of THE MILLARD COUNTY GAZETTE, a weekly paper having a general circulation of approximately 5,000 within Millard County, the State of Utah, published every Tuesday at Fillmore, Millard County, Utah:

That the notice of tentative approval

a copy of which is attached hereto, was published in said paper for one consecutive issues, the first publication having been made in the issue of the 5 day

of August 19 86, and the last publication in the issue of the 11 day of August, 19 86; that the said notice was published in the regular and entire issue of every number of said paper during the period of times and publication, and that the same was published in the newspaper proper and not in a supplement.

Subscribed and sworn to before me this 11 day of August, 19 86

Notary Public

My Residence is Fillmore, Millard County, Utah.

NOTICE TO BID

A meeting will be held on August 7, at 7:00 p.m. at the Millard County offices in Delta, located at 26 North 300 West, for all earth moving contractors interested in bidding on the closure of the open garbage dumps in Millard County. It is mandatory that you have a representative present at this meeting if you wish to be considered for bidding.

Published in The Millard County Gazette on August 5, 1986.

NOTICE OF TENTATIVE APPROVAL

Division of Oil, Gas and Mining, Department of Natural Resources, in and for the State of Utah, in the matter of tentative approval of the Mining and Reclamation Plan permit application submitted by M.C. Godbe, III, Geological Engineer, Millard County, Utah (Notice of Tentative Approval No. PRO/027/008).

The State of Utah to all operators, takers of production, mineral and royalty owners, and particularly all persons interested in State Section 32, Township 22 south, range 11 west, SLBM, Millard County, Utah. State identification # UT860320-020.

Notice is hereby given that tentative approval was given by the Division of Oil, Gas and Mining, on July 22, 1986 to Murray C. Godbe, to proceed with the development of a mining operation entitled "Sevier Dry Lake Project" which will involve facilities in the following locations: A sand and gravel lease has been issued by the Division of State Lands & Forestry which comprises two (2) twenty acre parcels in portions of State Section 32, T22S, R11W, Millard County, Utah. Borrow materials obtained from one twenty acre parcel (N1/2 NE1/4 NW1/4, Section 32, T22S, R11W) will be used to construct a dike across the southern arm of the Sevier Dry Lake affecting portions of Sections 19, 29, and 30, T22S, R11W & Sections 13, 14, & 24, T22S, R12W, SLBM Millard County, Utah.

The name of the person representing the proposed operation is Mr. Murray C. Godbe, III, 1012 New-

house Building, Salt Lake City, Utah 84111. Mr. Godbe has fulfilled obligations under the Utah Mined Land Reclamation Act of 1975 (Section 40-8, UCA 1953 as amended) with specific reference to Section 40-8-13 and will employ the following mining and reclamation techniques on approximately 40 acres of state and federally owned land.

During Operations:

1. The borrow area for obtaining fill material for the dike will disturb 20 acres of state land. From 160,000 -180,000 cubic yards of fill will be removed for dike construction. The actual dike construction will affect 20 acres of federal land. An access road will be constructed to access the state leased borrow area and will impact approximately 2.4 acres of new disturbance.

2. The dike will serve as a lake surface water level control structure. Total dike length will be 20,500 feet. The intent is to lower the water level of the southern half of the lake through controlled evaporation. The tentative approval includes the construction of the dike, and disturbance of the borrow area used for fill.

Following Operations:

1. Borrow area(s) will be regraded to approximate original contour, no highwalls or banks will exceed a 2:1 (H:V) ratio.

2. Subsoil materials are comparable to the surface soils and will serve as a substitute topsoil medium for final reclamation. Appropriate amendments will be utilized to supplement the subsoil upon final reclamation.

3. Standard agronomic practices will be used to prepare the seed-bed for drill and/or broadcast seeding. The disturbed areas will be reclaimed with native vegetative species.

4. The dike will remain as a permanent access route traversing the Sevier Dry Lake bed only if it determined to be stable upon cessation of mining operations. If the dike proves unstable when mining activities cease, based upon joint BLM, DOGM inspection it will be reclaimed.

Published in The Millard County Gazette on August 5, 1986.
